ATTENTION TOWN OF MONROVIA SEWER CUSTOMERS:

The Town of Monrovia is attempting to qualify for a Community Development Block Grant (CDBG) from the Indiana Office of Community & Rural Affairs (IOCRA) and is currently seeking grant funding for a \$3.5 million dollar Sewer Improvements Construction Project which includes wastewater treatment plant and collection system improvements per a mandated Indiana Department of Environmental Management (IDEM) Agreed Order. The CDBG Program is a federally funded grant program intended to benefit residents through various community development public assistance projects such as improvements to wastewater, water, stormwater, etc. To receive the federally funded grant dollars, a special income survey must be completed.

If you receive an income survey in the mail from Jerrell Consulting & Grant Administration Services, LLC this means you have been randomly selected to participate in this important process. It is extremely vital that the survey be completed fully and returned in the self-addressed stamped envelope as soon as possible. Please contact Kristy Jerrell, the project's Grant Administrator, 812-878-0826, with any questions regarding the improvements project or the income survey. Your cooperation concerning this matter is greatly appreciated.
